

MARCH EVENT

The next Little Rhody Division event is scheduled for **Saturday, March 3rd** at **East Greenwich United Methodist Church**, 1558 South County Trail, East Greenwich, RI 02818. Parking and entrance at the rear of the building. Spouses and guests are always welcome.

We will begin with coffee, donuts and socializing at **9:30 AM**, followed by information sharing and a short business meeting at about **10 AM**. Plus, as always, we will share ASK A QUESTION/SOLVE A PROBLEM, a forum for our in-house experts to answer your questions and solve your nagging model railroad problems. If there is sufficient interest, we will **send out for lunch at Noon**.

This month we continue with our series of presentations targeted at the inexperienced model railroader. Our topic this month is **Basic Scenery**. Perfect for the beginner model railroader. **Sue Osberg**, Superintendent of the Little Rhody Division, will demonstrate modeling of basic mountains/rocks, grasses, dirt roads, small shrubs and simple trees. This will be a demonstration with a descriptive handout available.

If you have any specific concerns/questions on Scenery that you would like to have addressed, please let me know and I will pass them along. Or, simply bring your questions to the meeting for open discussion.

April Event

Mark your calendar for the morning of Saturday, April 7th. Location will be the East Greenwich United Methodist Church. Our topic will be **Basic Wiring**, aimed at the beginner model railroader. David Dekonski, will be

presenting. This is a broad topic, with many subtopics that we can discuss. If you have any specific topics/questions related to wiring you would like to have discussed, please let me know as soon as possible and we will try to have it addressed in the presentation.

As always, please contact me with any questions or issues. Also, we are always in search of topics of interest for future meetings. If you want to learn more on a specific topic, just let me know.
